## Business Reform Action Plan (BRAP) under Ease of Doing Business

India being a federally structured nation, States/Union Territories (UTs) play a vital role in promoting investor confidence. Under the reform action plan, all States/UTs in the country are ranked based on reforms undertaken by them on designated parameters. Dedicated online portal ([www.eodb.dipp.gov.in](http://www.eodb.dipp.gov.in)) has been developed by DPIIT for States/UTs to submit evidence of implementation of reform points and user data for feedback on reforms. It is the first such platform for knowledge sharing on regulatory compliance requirements and rankings across States/UTs in the country. Based on the global best practices, assessment of reform implementation under Business Reform Action Plan (BRAP) 2022 is 100% based on user feedback.
